THE "SHIP FAST" ENGINEER. I leverage AI-driven workflows to build functional MVPs in under 48 hours. Combining a founder's ownership with aggressive technical execution across iOS, Flutter, and Web. Proven history of high-stakes results (£2.6M deal secured).

## EXPERIENCE

### TECH SALES & SYSTEMS LEAD @ YANGSHENG 05/24 - 11/25

- Engineered automated CRM workflows, cutting response times by 50%.
- Bridged technical implementation with sales ops for global recruitment.

### FOUNDING ENGINEER @ MERC 02/22 - 02/24

- Architected an international recruitment platform (Idea to Ship).
- Built AI matching algorithms to optimize candidate pairing.
- Deployed features in rapid 1-week cycles across 3 time zones.

### MOBILE ENGINEER @ DECODE METRICS 08/22 - 10/23

- Built cross-platform analytics SaaS using Flutter & React.
- Implemented offline-first architecture for real-time dashboards.

### TECH CONSULTANT @ BEL MOROCCO 02/23 - 08/23

- £2.6M Investment Secured:** Led technical site tours and investor presentations, securing expansion to India.
